SRE @Intuitive | ex-Gogler ex-Cisco | AIOps - vLLM, KServe,
Ollama, HuggingFace Transformers, KEDA | Observability (Splunk/
Datadog/Prometheus) | Regulated/Healthcare Digital
Bothell, Washington, United States

Summary

I'm a PMP®-certified leader driving reliability, platform, and program outcomes across complex, regulated digital environments. Over 10+ years, I've led cross-functional teams across SRE, cloud, observability, and security to ship stable platforms, improve SLOs, and reduce cost-to-serve. Recent work includes Splunk upgrades (7→9.x), Datadog rollouts at scale, Prometheus exporters, and automation across Azure/AWS—delivering measurable improvements in MTTR, availability, and operational efficiency.

What I'm exploring next: Manager/Director roles (Platform/SRE/PMO/Program) with meaningful scope—people leadership and/or ownership of an essential function. I'm also open to a 12–18-month international leadership rotation within a multinational to scale best practices, mature global operating models, and build future leaders.

If your team is improving reliability at scale, modernizing observability, or running multi-region cloud programs, let's connect.

Experience

Intuitive

Senior Site Reliability Engineer
May 2023 - Present (2 years 9 months)

Google

2 years 1 month
Site Reliability Engineer
May 2022 - March 2023 (11 months)
